- Consultancy

Thanks to Everyone!

Our warmest thanks to all of you who took the time to visit our stand at Productronica last week. Despite all the electronic means of communication available, we value this opportunity to meet you personally and discuss your needs today and in the future. This helps us as we optimize our course contents to meet your requirements. We hope that your visit to Productronica was as fruitful as it was for us and look forward to many more years of cooperation.

PIEK International Education Centre (I.E.C.) B.V. is one of only a few officially approved IPC training and certification institutes in Europe. Apart from the IPC courses, our extensive training programme includes a broad range of "on-the-job training" courses conforming to the IPC standards.

Here a brief extract from our range of courses:

- IPC PCB Designer Certification (CID)
- IPC PCB Advanced Designer Certification (CID+)
- IPC-A-600 Certification
- IPC-A-610 Certification
- IPC's J-STD-001 Certification
- IPC-7711 & IPC-7721 Certification
- Electronic Assembly Training based on IPC-A-610
- Repair and Rework Training based on IPC-7711 & IPC-7721
- IPC-WHMA-A-620 Certification
- Wave and Reflow Soldering: Measurement and Process Control

Interested in one of the above courses or need more information? Then simply tick on the course concerned and send a brief e-mail with your enquiry to sales@piekiec.eu. We will send you the information you need without delay.

You will find our complete training programme, including dates and locations, on our website (www.piekiec.eu). You can also register without obligation for our electronic info sheet, which we send out free of charge on request.

Should you have additional questions or need information, please contact Mira Weltens by phone +31 - 45 - 570 33 33 or by e-mail sales@piekiec.com.

With kind regards,

PIEK International Education Centre (I.E.C.) B.V.
